SUMMARY

Motivated Software Engineering fresher with strong foundation in Python, Data Structures & Algorithms (DSA), and Object-Oriented Programming (OOP). Experienced in building AI-based and web development projects. Skilled in problem-solving, REST API integration, debugging, and responsive UI development. Seeking an entry-level SDE/Web Developer role.

SKILLS

Programming: Python, SQL

Core: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Web: HTML, CSS, JavaScript, Frontend Development

Tools: Git, GitHub (Version Control)

Other: REST API Development, Debugging, Testing

WORK EXPERIENCE

Website Development Intern — Li-Mat Soft Solutions (June 2023)

- Developed responsive UI components using HTML & CSS
- Fixed UI bugs and improved performance
- Collaborated with team for better user experience

Community Manager — RNX Esports

- Managed 5,000+ member community and engagement
- Organized events and streamlined operations

PROJECTS

Facial Recognition Attendance System (Ongoing)

- Built real-time face recognition system using Python & OpenCV
- Automated attendance logging with high accuracy
- Reduced manual effort by ~90%
- Applied image processing & feature extraction techniques

Website Development Project

- Designed responsive UI using HTML, CSS, JavaScript
- Enhanced user experience across devices
- Debugged issues and improved performance

CERTIFICATIONS

- **Generative AI** – LinkedIn (2025)
- **Cloud Computing** – Simplilearn (2025)
- **Python for Data Science** – IBM (2025)

EDUCATION

Master of Computer Applications (MCA) — Sharda School of Engineering & Technology (2024–2026)

Bachelor of Computer Applications (BCA) — ICFAI University Tripura (2021–2024)
